EXECUTIVE SUMMARY

Astral Media Solutions, also known as Astral Studios, is an award-winning media production and animation studio. Established in 1991 with extensive experience in **Corporate Media & Content Production** for high performance brands and international organizations.

Astral Production Showcase <https://vimeo.com/119534943>

Astral Studios recognised as a Top Creative & Design Company.

<https://www.astralstudios.co.za/astral-studios-recognized-as-a-top-creative-design-company-by-clutch/>

Our production facility offers an integrated full turnkey marketing, advertising and production service, throughout Southern Africa and internationally, that caters for all internet and broadcast media and communications, TV & radio advertising, videos and documentaries, corporate presentations, training, Virtual (green screen studios) and live event content development and AV staging.

This includes full production services, such as development of concepts, scripting, in studio or location video and photography shoots; graphic design, infographics, 2D & 3D animation and visual FXs; virtual pre-recordings and presentation development; design, digital content development, and management of worldwide virtual and hybrid live streaming transmissions, traditional AV staging, (live mix, lights, staging and broadcast) and digital content development for social media marketing.

We work together with United Nations vetted translators and Interpreters, to provide Live simultaneous Interpretation and Translation services as well as Sign Language Interpretation.

OUR STUDIOS: <https://vimeo.com/338288654>

We are situated in a film and production hub in the **Fourways** area of Sandton, part of Johannesburg's business district.

We are an empowering supplier in terms of the dti codes of good practice, with Level 4, BBBEE Procurement Recognition certificate.

OUR VISION

To produce and create media content to empower executives and organizations worldwide to excel in their marketing, branding and communication objectives.

To contribute towards a sustainable growth and development in business and industry and enhance human potential through creative content media production and interactive virtual space programming in training, marketing and advertising.

MISSION STATEMENT

1. To develop and acquire **new technologies** in media production, to help companies with the execution of their corporate communication strategies through Advertising, Marketing, Branding and Promotional activities.
2. To source and manage inspired and **dedicated teams** of specialists in the digital arts, locally and from around the world and to embrace every project with passion and excitement.
3. To masterfully create unique media products and services to serve industry applications using **smart AI technologies**, developed with clear insight to clients objectives.
4. To continuously acquire and develop new products and services in emerging market spheres in **Augmented and Virtual Reality** space.
5. Design and implement interactive **e-Learning** Course Material for the evolved future of online education and training.

5

VIDEO PRODUCTION SERVICES

1. Marketing and Promotions

Promotional video content provides a great opportunity to engage and connect with potential and repeat customers. Customer interaction and response provides valuable insight to products and services on offer. Promo videos can include animation such as Infographics and Motion Graphics, 2D and 3D animation for eye catching product awareness and promotion.

2. Corporate Communication

Video content creation for internal and external strategic corporate business communication includes:

- Internal communication
- Interviews & presentations
- Franchisee and retail updates
- Motivation and incentives
- Recruiting / induction
- Health and safety
- Testimonials / case studies
- Corporate functions & events
- Corporate overviews and documentaries
- Corporate social responsibility

3. Advertising and Branding

Exciting story telling content creation for brand awareness. Video and animation can be a visually compelling approach, especially when demonstrating complex products or services.

4. E-Learning and TRAINING

Training and skills development programs are video recorded with Interactive programming, converting classroom **training to an easy online platform.**

MARKETING AND PROMOTIONS

Marketing videos can be produced with shoot footage on location, usage of stock footage from our extensive libraries, combined with animation and or visual effects.

**VIDEO
MARKETING**
CREATING A POWERFUL
PERSONEL CONNECTION
WITH YOUR CUSTOMER

Marketing and Company Profile Videos

<https://vimeo.com/251612223>

Our animated videos can include illustrations, motion graphics and special visual effects to create a high-impact marketing product. 2D Animation includes flat characters with detailed 2D appropriate scenes, text and effects whereas 3D animation is appropriate for the realism, detail and depth of microcosms, internal workings, assembly and interactions depicting technical aspects.

Animated video creation has unlimited potential for informing consumers and creating excitement about a product.

The realm of eventing has changed, with Live Streaming becoming the norm.

Our live video production studios offers multiple cameras in a green screen studio with versatile virtual 3D studio backdrops with options for pre-recorded video inserts, PowerPoint upgrades, live MCs and presentations, live Q&As or any combination thereof. Live streaming to small or large audiences, locations of your choice and / or to social media.

Live stream functions include virtual user or industry conferences (with complex agenda's), AGM's, training, department meetings, webinars, town halls, sales kick-offs, company wide events and more, and can be recorded and uploaded to dedicated platforms or websites for delegates that cannot attend.

This will add an extremely cost effective, new and exciting dimension to event planning that makes your functions more interactive and far-reaching than ever before!
